

Make a “green” statement.

If you're looking for ways to reduce your carbon footprint, Northern Trust is happy to announce we now offer the option of going paperless for your banking deposit, trust, investment management and custody account statements.

Private Passport® makes it easy.

When you're ready to discontinue receiving paper statements and receive statements electronically instead, simply visit Private Passport's Document Manager and check "Go Paperless" next to any or all accounts for which you wish to cease mail delivery. Beginning with your next statement cycle, you will no longer receive paper statements for each selected account.

Northern Trust

northerntrust.com

Once you choose to go paperless with your Northern Trust account statements you can:

- Receive e-mail alerts when your statements or other new eDocuments are available.
- Reduce the possibility of others viewing your financial information (along with one less financial document to ultimately shred).
- View statements online (and print statements for when you do need a paper copy).
- Revert back to receiving statements in the mail again at any time.

To go paperless today – or for more information, including frequently asked questions – sign on to Private Passport. Or contact the Private Passport Help Center at 888-635-5350.
