

Changes for Clients with Northern Trust ATM Cards

Northern Trust ATM cards have been discontinued for personal and non-personal checking and savings accounts. Clients with ATM cards will have their cards replaced with a Visa® Debit Card. No action is required at this time. Here is what ATM card clients will need to know:

- Visa® Debit Cards will be mailed over several weeks beginning August 2017.
- The Visa® Debit Card will have the same personal identification number (PIN) that was associated with your old ATM card.
- Accounts associated with the ATM card will be automatically tied to the new debit card.
- Transaction limits will increase and are described in the Agreement and Disclosure Statement which will be delivered with the new debit card.

Clients may activate the new debit card by completing an ATM transaction using their current PIN or by calling (800) 837-9735. Upon activating the new card, securely destroy the existing ATM card as it will be deactivated shortly thereafter.

For additional questions, contact a Banking Service Center representative at (888) 289-6542 or your relationship manager.
