## NORTHERN TRUST WORLD ESG LEADERS EQUITY INDEX FGR FUND

Marketing Communication  
**PASSIVE EQUITY**

SHARE CLASS G EUR AS OF DECEMBER 2022

### Investment Objective

The Fund is a UCITS feeder fund. The Funds' investment objective is to invest at least 85% of its assets in the Northern Trust World ESG Leaders Equity Index Fund (the "Master Fund") a Sub-Fund of the Northern Trust UCITS Common Contractual Fund, the investment objective of which is to closely match the risk and return characteristics of the MSCI World ESG Leaders Index (the Index) with net dividends reinvested.

The Fund may also invest up to 15% of net assets in aggregate in ancillary liquid assets including cash deposits, cash equivalents, certificates of deposits and Money Market Instruments which may be held by the Fund to meet expenses or pending investment. The Master Fund invests in equities (that is, shares and other similar kinds of assets) issued by or relating to companies included in the Index.

The Index is a custom index which corresponds with the MSCI World Index and is capitalization weighted and provides exposure to companies with high ESG performance relative to their sector peers, based on MSCI's ESG ratings. Companies found to be in violation of international norms are excluded from the Index.

The investment returns of the Fund are expected to be similar to those of the Master Fund. The investment returns of the Fund may differ from those of the Master Fund due to changes in the exchange rate between the base currency of the Master Fund (USD) and the currency of the Fund.

Target Market: This Fund is appropriate for investors who plan to invest over the medium to long term; and are looking for a passively managed investment in the relevant market(s) with Environmental, Social and Governance (ESG) principles implemented according to a defined set of exclusions as well as assessment of ESG ratings.

This Fund may be appropriate for investors who can benefit from the tax status of the FGR fund range.

**NORTHERN  
TRUST**

ASSET MANAGEMENT

For regulatory reasons we are unable to provide performance information where the track record is less than 12 months; if you are an existing investor in, or distributor of, this fund please contact your normal representative.

Learn more at [northerntrust.com/strength](https://northerntrust.com/strength).

\* Assets under management as of September 30, 2022. For the Northern Trust Asset Management entities included in the AUM total, please see disclosure at end of this document.

### RISK WARNINGS

**Investment Risk** - An investment in the Fund involves investment risks including possible loss of the amount invested.

**Counterparty Risk** - In case of bankruptcy of the broker, there is no guarantee collateral held by the broker will be returned to the Fund. In the event of bankruptcy of the counterparty, the premium and any unrealised gains may be lost.

**Derivative Risk** - Derivatives may result in gains or losses that are greater than the original amount invested.

**Valuation Risk** - A position in the Fund may be valued incorrectly, as some prices may be uncertain at a point in time.

**Currency Risk** - Where a class of shares are in a currency other than the base currency of the Fund, the non-base share classes of the Fund may be affected unfavourably by fluctuations in currency rates.

**Risks associated with investing in the Master Fund** - The value of this Fund and the income from it is closely linked to the performance of the Master Fund. There is no guarantee that the investment objective of the Master Fund will be achieved. As a unitholder of the Master Fund, this Fund bears, along with other unitholders, its pro rata portion of the expenses of the Master Fund. These fees are in addition to the other fees and expenses which this Fund bears directly in connection with its own operations.

### CARBON DATA METRICS

Carbon footprint of the index constituents versus parent

Potential carbon emissions are emissions of fossil fuel companies that can be potentially released should all the fossil fuel reserves they own be extracted. This field represents the potential carbon emissions of the fossil fuel reserves owned by a company using a formula from the Potsdam Institute for Climate Impact research. Carbon intensity represents the company's most recently reported or estimated Direct (fuel combustion, company vehicles) and Indirect (purchased electricity heat and steam) greenhouse gas emissions.

### ADVOCACY DATA

Engagement by Theme

Advocacy data is updated on a quarterly basis capturing the previous 3 months engagement activity. For more information on our engagement, please read our quarterly engagement reporting at [northerntrust.com/engagement](http://northerntrust.com/engagement). Engagement undertaken by Hermes EOS on behalf of Northern Trust.

## Glossary

**Business Related Exclusions** : Business related exclusions cover tobacco manufacturing, retail and trade and for-profit prisons.

**Duration**: is a measure of the sensitivity of the price of a bond or other debt instrument to a change in interest rates.

**Forward EPS Growth**: is an estimated growth of the next period's earnings of a company, usually till the completion of the current fiscal year and sometimes to the following fiscal year.

**ISIN**: International Securities Identification Number. It is a 12-digit alphanumeric code that uniquely identifies a specific security.

**LT / ST**: Long Term / Short Term.

**Modified Duration**: measures the change in the value of the a bond in response to a change in 100-basis-point (1%) change in interest rates.

**Ongoing Charge**: is a figure representing all annual charges and other payments taken from the fund.

**Price-to-Book Ratio**: is used to compare a firm's market capitalization to its book value. It's calculated by dividing the company's stock price per share by its book value per share. Book value is calculated as follows: (total asset - total liabilities) / number of shares outstanding.

**Quant Active**: securities are chosen based on numerical data compiled through quantitative analysis. It is aiming for high alpha from exposure to multiple factors: proven stock ranking model focused on selecting stocks that exhibit good value, quality, momentum and analyst revisions characteristics etc.

**Spread Duration**: is an estimate of how much the price of a specific bond will move when the spread of that specific bond changes.

**SRRI**: is a value based on the volatility of the fund, which gives an indication of the overall risk and reward profile of the fund.

**Swing Pricing**: protects existing shareholders against fund dilution by passing transaction costs to purchasing or redeeming shareholders. It allows funds to adjust the net asset value up or down once purchase or redemption limits are exceeded.

**Trailing 12-month price-to-earnings ratio**: is a relative valuation multiple based on the last 12 months of actual earnings, calculated by dividing the current stock price by the trailing EPS for the previous year.

**WAL (Nominal Weighted Average Life)**: A bond's maturity is the length of time until the principal amount of the bond is to be repaid. WAL of the fund is calculated as the average of the underlying bonds' maturities, adjusted to take account of their relative weight (size) within the fund.

**WAM (Weighted Average Maturity)**: A bond's maturity is the length of time until the principal amount of the bond is to be repaid. WAM of the ETF is calculated as the average of the underlying bonds' maturities, adjusted to take account of their relative weight (size) within the fund.

**Weighted Average Market Cap**: refers to a type of stock market index construction that is based on the market capitalization of the index's constituent stocks.

**Yield to Maturity (%)**: is the total return anticipated on a bond if the bond is held until it matures.
