NT EUROPE SDG SCREENED LOW CARBON INDEX FUND

Investment Objective

The investment objective of the Fund is to closely match the risk and return characteristics of the MSCI Europe Select ESG Leaders Low Carbon Impact G Series Index (the "Index") with net dividends reinvested.

The Fund invests in equities (that is, shares and other similar kinds of assets) issued by or relating to companies included in the Index.

Target Market: This Fund is appropriate for investors who plan to invest over the medium to long term; and are looking for a passively managed investment in the relevant market(s) with Environmental, Social and Governance (ESG) principles implemented according to a defined set of exclusions. This Fund may be appropriate for investors who seek a Fund which features tax transparency.

The Index is a custom index which corresponds with the MSCI Europe Index which captures large and mid-cap representation across developed markets in Europe, based on MSCI definitions. The Index then applies a series of exclusions based on MSCI ESG data.
