

TWO-FACTOR AUTHENTICATION

Why is Northern Trust Requiring Two-Factor Authentication at login?

At Northern Trust, our pursuit of information security and data protection is driven by the same commitment to excellence that we apply to understanding your financial needs.

Regulatory Compliance

As hackers and cyberattacks grow in both number and sophistication, regulatory agencies around the world are developing more stringent requirements to reduce consumer risk. Northern Trust's implementation of Two-Factor Authentication will provide you with the high-quality experience you have come to expect while being protected by best-in-class security backed up by international laws, regulations and industry best practices.

Industry Standard

Requiring Two-Factor Authentication is a proven industry standard for significantly reducing the possibility of damage caused by external hackers and internal bad actors. User IDs and passwords can be compromised either accidentally or on purpose. Requiring additional verification enhances cybersecurity for Northern Trust and for you.

What this means for you

Beginning in September 2023 and running through the end of the year, we will roll out Two-Factor Authentication at login to all Passport users.

Prior to your Two-Factor Authentication implementation date, you will be provided with step-by-step instructions on how to set up Two-Factor Authentication.

About Northern Trust

Northern Trust Corporation (Nasdaq: NTRS) is a leading provider of wealth management, asset servicing, asset management and banking to corporations, institutions, affluent families and individuals.
