## DIRECT U.S. GOVERNMENT & AGENCY OBLIGATIONS

### Percentage of Dividends Derived from Direct U.S. Government & Agency Obligations

In some states, mutual fund dividends derived from certain direct U.S. government and agency obligations may be exempt from state income taxes. A portion of the dividend income paid by Northern Institutional Funds during 2022 may qualify for this exemption. This table shows the percentage of dividends (the amount reported in box 1a of Form 1099-DIV) attributable to direct U.S. government and agency obligations for each of the Northern Institutional Portfolios during 2022.

## PERCENTAGE OF 163(J) INTEREST DIVIDEND

The Treasury Department and the Internal Revenue Service (IRS) have finalized regulations that permit regulated investment companies (RICs) to pass through interest income to corporate shareholders for purposes of determining such corporations' interest expense limitation under section 163(j). The final regulations provide a RIC's corporate shareholders with interest income rather than ordinary dividend income, potentially increasing the amount of interest expense the shareholders can deduct under the new limits implemented by the 2017 tax legislation commonly referred to as the "Tax Cuts and Jobs Act."

Listed below are the percentages of total ordinary income distributed by the fund during the 2022 calendar year (Box 1a Total on Form 1099) that can be treated as a 163(j) Interest Dividend.
